About **Triosphere Tech**

Triosphere Tech is a technology solutions company focused on building intelligent, scalable, and performance-driven digital systems. We transform complex business challenges into streamlined solutions that drive efficiency, innovation, and sustainable growth.

We specialize in custom software development, AI-powered systems, CRM platforms, and automation solutions designed to optimize operations and enhance user experience. Every solution is engineered with clean architecture, security, and long-term scalability in mind.

Digital **Growth**

By combining technical expertise with strategic business insight, we deliver practical, results-oriented systems that help organizations move faster, operate smarter, and compete confidently in the digital era.

Overview & Values

Overview

Triosphere Tech is a technology solutions company focused on building scalable, intelligent, and performance-driven digital systems. We help businesses streamline operations, enhance customer experiences, and accelerate growth through strategic technology implementation.

By combining engineering precision with business insight, we deliver custom software, automation platforms, and modern digital applications designed for long-term scalability and measurable impact.

Our approach is structured, transparent, and outcome-oriented – ensuring every solution is reliable, secure, and aligned with business objectives.

Values

Precision

We deliver with accuracy, discipline, and high performance standards.

Purpose-Driven Innovation

We build technology that solves real business problems – not just trends.

Integrity

We operate with transparency, accountability, and long-term commitment.

Client Partnership

We align with our clients' vision and grow alongside their success.

Scalable Thinking

Every solution is designed to evolve with future business demands.

Execution Excellence

We combine strategic planning with disciplined implementation to ensure every project is delivered on time.

We build technology that helps businesses scale smarter, operate faster, and grow stronger.

What We Do

We delivers intelligent, scalable, and performance-driven digital solutions designed to solve real business challenges and unlock sustainable growth.

Our Core Values

Innovation

Think. Create.

Integrity

Built on Trust

Collaboration

Build Together

Our Development Process

A structured approach that transforms ideas into scalable digital solutions.

01

Requirement Discovery

We begin by understanding your business goals.

02

Strategy & Planning

Our team creates a structured plan including architecture.

03

Design

We design intuitive and visually engaging interfaces.

04

Development

Our developers build scalable solutions.

05

Testing & Launch

Before deployment, we conduct rigorous testing.

Services

We bring our Digital Solutions together to find the right fit.

Our Products

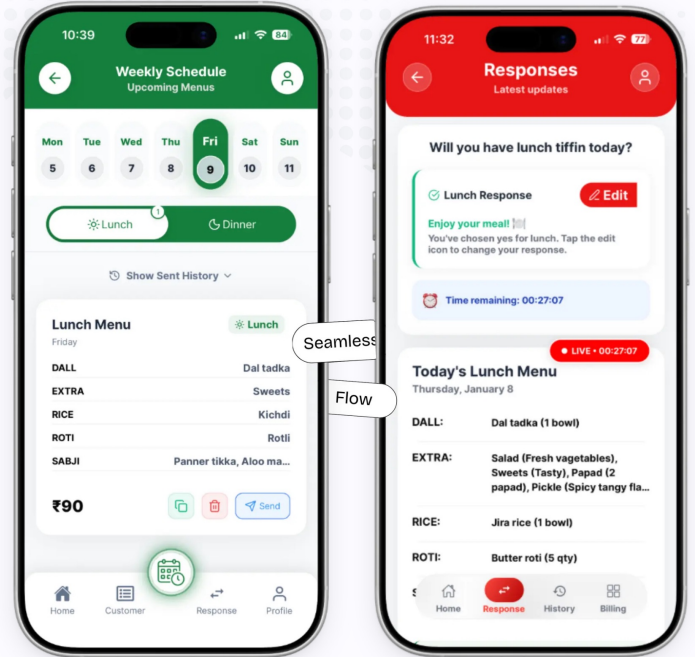

Innovative digital solutions crafted to solve real business challenges. Explore our products designed to simplify operations, enhance efficiency, and support scalable growth.

Lichi - Tiffin Service

Introduction

Lichi is a tiffin service management application designed to simplify how home-style food providers and their customers manage daily meals. The platform brings clarity, predictability, and control to a process that is often informal and fragmented - daily menu sharing, confirmations, and billing.

Features & Use-Cases

Predictable Daily Planning

Automated Billing Logic

Reduced Food Wastage

Scalable Operations

Transparent Records

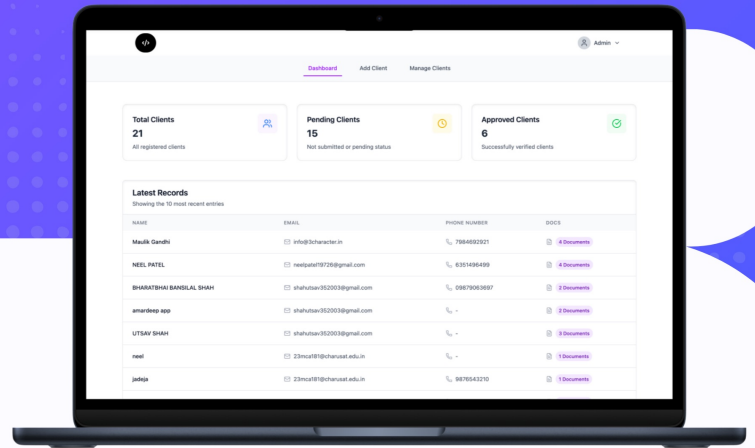

Simplify For Customers

Smart Planning for Home-Style Tiffin Services.

Secure Client Onboarding

Introduction

Investment companies operate in highly regulated environments where client onboarding must be accurate, auditable, and secure. This platform was designed specifically to address those needs by transforming a traditionally manual, error-prone process into a controlled digital workflow.

“Compliance isn’t optional. Experience shouldn’t suffer because of it.”

Key Capabilities

Secure by Design

One-time access links and controlled submissions protect sensitive client data and prevent misuse.

Workflow-Driven Process

Each onboarding follows a predefined, repeatable flow—reducing errors and manual intervention.

Visibility & Control

Real-time status tracking and document access from a single dashboard for admin.

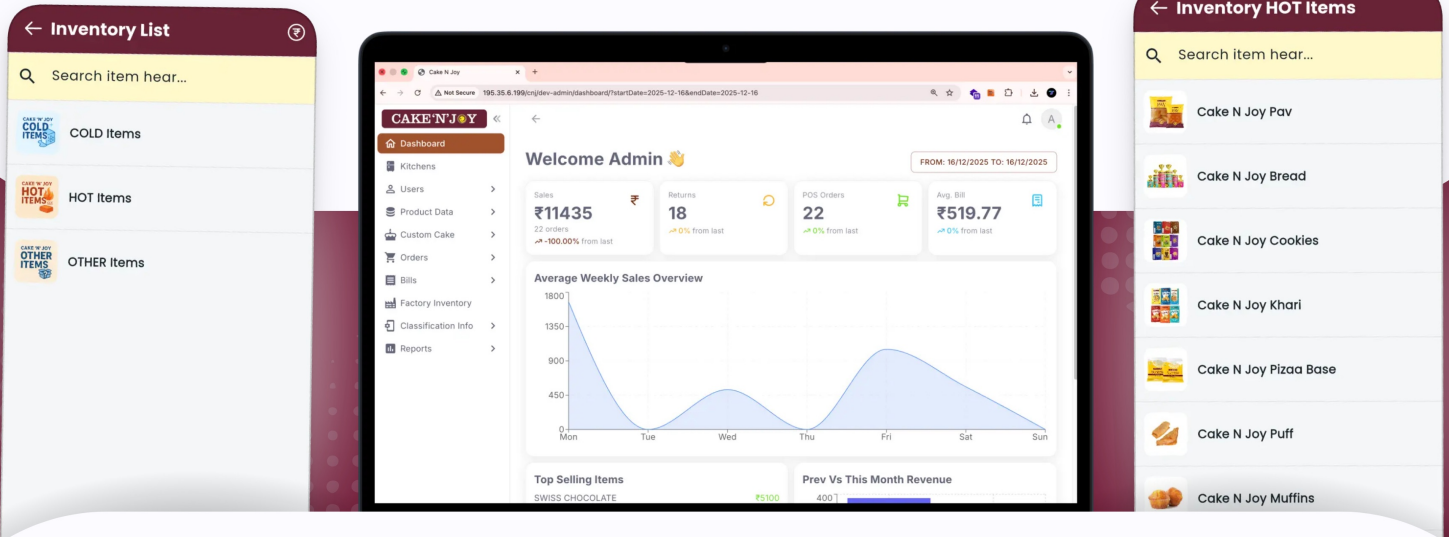

Re-Upload Handling

One-time access links and controlled submissions protect sensitive client data and prevent misuse.

“Built for trust. Designed for scale.”

CAKE 'N' JOY

A Unified Franchise Operations Platform

Introduction Cake N Joy operates through multiple franchise stores, each handling daily sales, inventory, orders, and customer interactions. The challenge was to bring consistency and control across all franchise operations while keeping the system simple enough for daily use at the store level.

To address this, we built a dedicated franchise mobile app for store admins and a centralized web portal for the main admin—creating a connected ecosystem that supports visibility, accountability, and smooth operations across locations.

Feature Highlights

01

Franchise-First Mobile App

A focused app built specifically for daily store operations.

02

Transparent Store Records

Clear access to orders, returns, and invoices.

01

Centralized Franchise Oversight

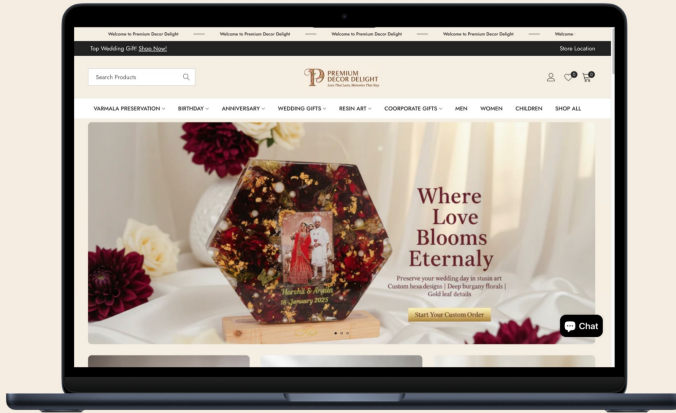

One admin portal to manage the entire network.

02

Scalable Franchise Management

Built to easily add new outlets as the brand expands.

Overview

Shadowbron is a Gen-Z-focused fashion brand specializing in oversized, graphic printed T-shirts. The objective was to build a storefront that feels bold, expressive, and effortless—while delivering a fast, conversion-ready shopping experience.

The platform was developed on Shopify, combining brand-driven design with scalable commerce foundations.

Brand-Led UI

Design decisions driven by brand identity, not templates.

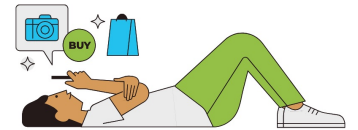

Conversion-Focused Layouts

Clear hierarchy that guides users toward purchase.

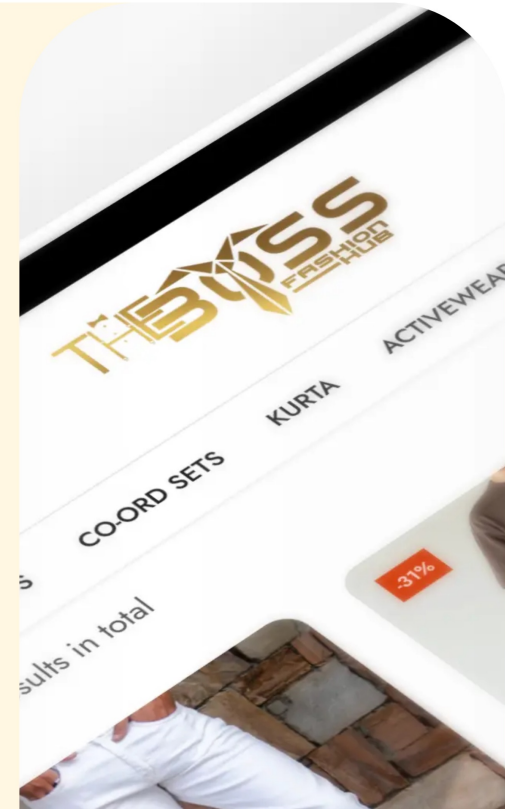

Our works in *shopify*

The Boss Fashion Hub

The Boss Fashion Hub is a well-known clothing store based in Khambhat, offering trendy and affordable fashion collections. After building a strong offline presence, the brand decided to expand into digital commerce.

- **Clear product category structure**
- **Promotional highlights placed without clutter**
- **Discount badges that improve conversion visibility**
- **Free shipping messaging to increase cart value**
- **Responsive product grids for seamless mobile browsing**

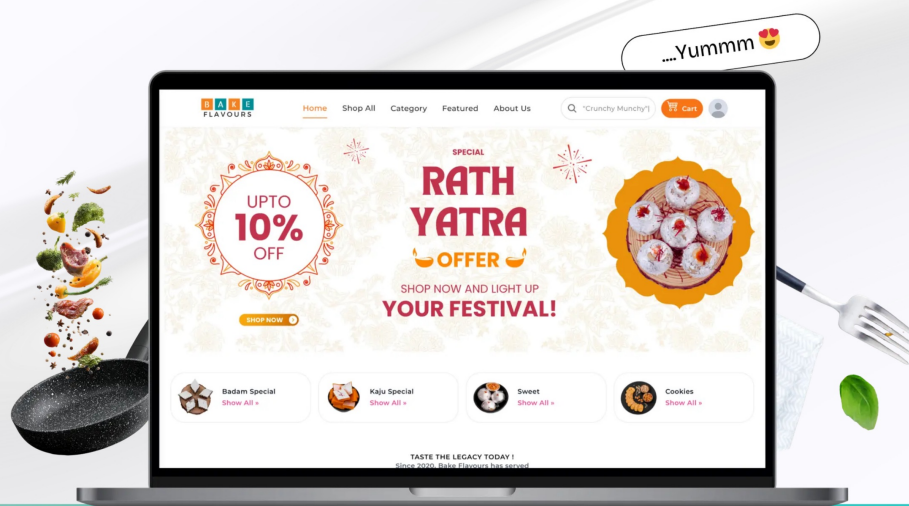

Project Overview

Bake Flavours is an e-commerce platform offering a curated range of bakery items, namkeens, and sweets. The vision behind the project was simple yet ambitious: make online food shopping feel effortless, trustworthy, and enjoyable, while equipping the business with a backend powerful enough to manage daily operations smoothly.

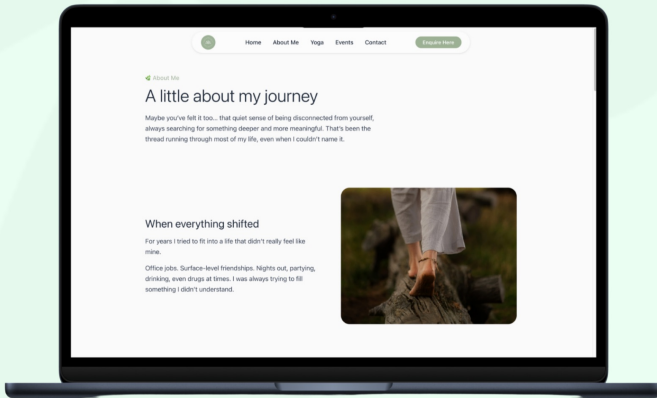

Area	What Was Done	Result
User Navigation	Clean, category-based layout for bakery, namkeens, and sweets.	Faster product discovery and easier browsing.
Homepage Control	Dynamic sections with enable/disable options.	Quick updates for campaigns and seasons.
Admin Operations	Centralized dashboard for all store activities.	Reduced dependency on developers.
State Management (Redux)	Centralized state for cart, user sessions, and UI interactions.	Consistent behavior and predictable data flow across the site.

Bake Flavours now operates on a reliable, scalable, and conversion-focused e-commerce platform. Customers enjoy a smooth and enjoyable shopping journey.

“Simple on the surface. Powerful underneath.”

Work with wellness

The objective of this project was to create a clean, minimal, and modern website that reflects Emily's teaching philosophy while providing a clear, welcoming space for visitors to explore her offerings and connect with her work.

“

”

Emily Mistry

Triosphere Tech perfectly captured the calm and mindful essence of my brand in a beautifully designed website.

Sarah Thompson

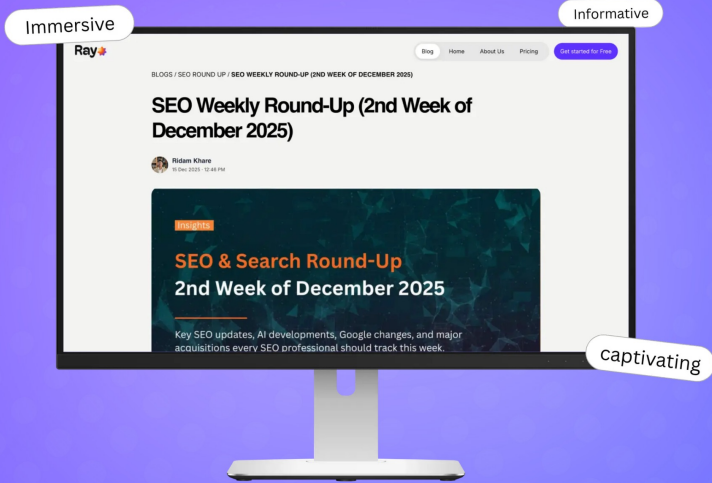

The website feels peaceful, clear, and very easy to explore.

Daniel Carter

A simple and elegant website that truly reflects Emily's wellness philosophy.

Case Studies

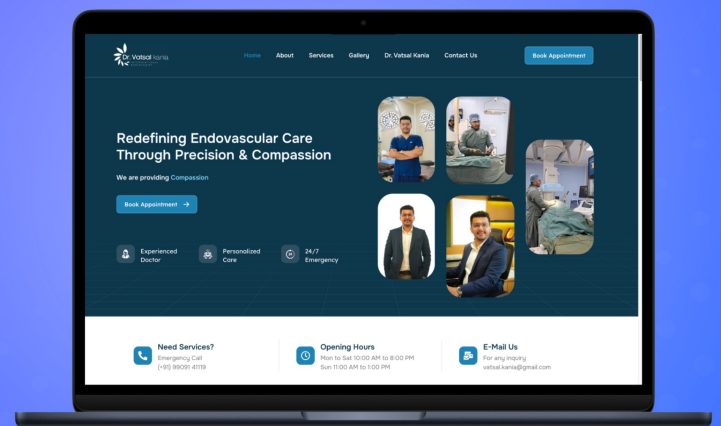

Rayo

We designed and developed a three-layer WordPress blog ecosystem covering the main blog page, blog listing view, and blog detail pages—each optimized for usability, performance, and long-term scalability.

Dr. Portfolio

Dr. Vatsal Kania's website is a modern medical platform designed to showcase advanced interventional radiology services and patient-focused healthcare solutions.
